WHAT IS THIS PRODUCT?

Type

The Shares are a class of shares in CaixaBank Wealth Nyala Investments Fund, a sub-fund of CaixaBank Wealth SICAV. The Fund is organised as a public limited company (*société anonyme*) governed by the Luxembourg law of 10 August 1915 concerning commercial companies, as amended (the "1915 Law") and is an investment company with variable capital (*société d'investissement à capital variable*). The Fund qualifies as an undertaking for collective investment in transferable securities (UCITS) within the meaning of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment (the "2010 Law"). The Fund has appointed CaixaBank Asset Management Luxembourg S.A. as its management company (the "Management Company"). The Sub-Fund is a sub-fund of an investment fund, whose performance will depend on the performance of its portfolio as further described in the section "Objectives" of this Key Information Document ("KID").

Term

The Fund, the Sub-Fund and the Shares were created for an unlimited duration. The Fund can be dissolved by a resolution of the general meeting of shareholders as further outlined in the articles of incorporation of the Fund (the "Articles"). The PRIIP Manufacturer cannot terminate the Fund, Sub-Fund or the Shares unilaterally.

Objectives

The investment objective of the Sub-Fund is to provide investors with medium to long-term capital appreciation by investing in a dynamic and diversified portfolio of assets. The Sub-Fund aims to produce returns by investing in multiple asset classes including money market instruments, equities, bonds and currencies. The Sub-Fund may invest without limitation in fixed income securities. The investment in fixed income securities includes investments in government bonds, credit bonds, emerging market bonds, convertibles bonds, covered bonds. The Sub-Fund may invest in, or be exposed to fixed income securities whose rating is not investment grade (below BBB-), ie: high yield bonds. However, investment in these securities will represent up to a maximum of 20% of the Sub-Fund's net assets. In the context of a rating downgrade, a corporate action or other conversions (including corporate restructuring events), this limit may be exceeded on a temporary basis. In this case, CaixaBank Asset Management, S.G.I.I.C., S.A. (the "Investment Manager") will seek to reduce its exposure to those instruments subject to the 20% limit in the best interests of the investors. Depending on the market conditions, the exposure of the Sub-Fund to equity markets without limitations in respect of market capitalisation or style, may be higher or lower and may go up to 50% of the net asset value of the Sub-Fund. The Sub-Fund can have an indirect exposure to various assets by investing through UCITS including, eligible Exchange-Traded Funds ("ETFs"). The indirect exposure to commodities and real estate may be up to 15% respectively and will be acquired by investing in UCITS, including eligible ETFs. The indirect exposure to real estate may also be acquired by investing in eligible closed-ended Real Estate Investment Trusts ("REITs"). The Sub-Fund may invest more than 10% in UCITS, including eligible ETFs. Investments in eligible ETFs or other eligible UCIs

will be made:

- to gain exposure to a market, strategy or bias;
- to perform a stock/bond management;
- to manage liquidity in the Sub-Fund;
- to be cost efficient in some specific markets.

The Sub-Fund may invest in developed markets and up to 25% of the net asset value of the Sub-Fund in emerging markets. The equity exposure may be acquired by investing directly in the targeted assets, by investing in eligible UCITS and/or by investing in derivatives, as described further below. The Sub-Fund will invest at least 51% of its net asset value in assets denominated in EUR, USD and/or CHF. The Sub-Fund may use derivatives for the purpose of efficient portfolio management, hedging and to implement investment strategies which aim to achieve the Sub-Fund's investment objective. Collateral received by the Sub-Fund may consist of cash. To achieve its investment goals, for treasury purposes and/or in case of unfavorable market conditions, the Sub-Fund may also invest in money market instruments and transferable securities on an ancillary basis. The Sub-Fund may also hold ancillary liquid assets, such as cash in bank deposits at sight held in current accounts with a bank accessible at any time, for up to 20% of its net assets which may only go beyond the 20% limit in case of exceptionally unfavorable market conditions as further described in the prospectus. The Shares are non-distributing, any income generated by the Sub-Fund is reinvested to grow the value of Shares. Investors may redeem their Shares in the Sub-Fund on each business day in Luxembourg. Taking into account the long-term holding period and the characteristics of the investments, the performance of the Sub-Fund

Depository).

Losses are not covered by an investor's compensation or guarantee scheme.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- € 10,000 is invested.

	If you exit after 1 year	If you exit after 7 years
Total costs	€ 221	€ 1,556
Annual cost impact (*)	2.2%	2.2% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.9% before costs and -0.3% after costs.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 7 years

The Sub-Fund is aimed at investors with a high risk tolerance who assume a perspective of capital appreciation in the medium/long term and, as such, are willing to tie up their savings for a recommended holding period of 7 years.

You can redeem your investment at any time during this period, or hold the investment longer. Investors may redeem their shares of the Sub-Fund on any business day in Luxembourg. Cashing in before the recommended holding period may increase the risk of lower investment returns.
