This Key Information Document is accurate as at 05/02/2025

WHAT IS THIS PRODUCT?

Type

The Shares are a class of shares in CaixaBank Wealth Reditus Fund, a sub-fund of CaixaBank Wealth SICAV. The Fund is organised as a public limited company (*société anonyme*) governed by the Luxembourg law of 10 August 1915 concerning commercial companies, as amended (the "**1915 Law**") and is an investment company with variable capital (*société d'investissement à capital variable*). The Fund qualifies as an undertaking for collective investment in transferable securities (UCITS) within the meaning of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment (the "**2010 Law**"). The Fund has appointed CaixaBank Asset Management Luxembourg S.A. as its management company (the "**Management Company**"). The Sub-Fund is a sub-fund of an investment fund, whose performance will depend on the performance of its portfolio as further described in the section "Objectives" of this Key Information Document ("**KID**").

Term

The Fund, the Sub-Fund and the Shares were created for an unlimited duration. The Fund can be dissolved by a resolution of the general meeting of shareholders as further outlined in the articles of incorporation of the Fund (the "**Articles**"). The PRIIP Manufacturer cannot terminate the Fund, Sub-Fund or the Shares unilaterally.

Objectives

The investment objective of the Sub-Fund is to provide investors with medium to long-term capital appreciation by investing in a dynamic and diversified portfolio of assets. The Sub-Fund aims to produce returns by investing, directly and indirectly into fixed income securities and into equities. To achieve its investment objective to provide capital appreciation, the Sub-Fund may seek indirect exposure to alternative asset classes, such as real estate or commodities by investing through UCITS, including eligible Exchange-Traded Funds ("**ETFs**"). The average credit rating of the fixed income securities is investment-grade. However, the Sub-Fund may invest up to 30% of its net assets in high yield bonds. High yield bonds are fixed income securities rated below investment-grade (i.e. below BBB- or any equivalent rating by a major rating agency or deemed by CaixaBank Asset Management, S.G.I.I.C., S.A. (the "**Investment Manager**") to be of equal quality). In the context of a rating downgrade, a corporate action or other conversions (including corporate restructuring events), the Sub-Fund may temporarily hold more than 30% of its net assets in high yield bonds. The Investment Manager will seek to reduce the exposure to such instruments whilst taking into account the best interest of the investors. In order to benefit from favourable market circumstances, the Investment Manager may shift the Sub-Fund's portfolio towards a more dynamic composition and invest up to 90% of the Sub-Fund's net assets into equity securities of the type described above. The Sub-Fund may be exposed up to 30% in aggregate of its net assets to emerging market bonds and equities and up to 80% of its net assets to assets denominated in any currency other than the Euro. The Sub-Fund may, to a marginal extent and in no case exceeding 10% of its net assets, gain exposure to alternative asset classes, such as commodities and real estate. Such exposure may only

be gained through investments in UCITS, including eligible ETFs. Investments in UCITS, including eligible ETFs will be made:

- to gain exposure to a market, strategy or bias where the Investment Manager is less specialised and it is therefore more efficient to avail itself of existing expertise;
- to perform a stock/bond management
- to manage liquidity in the Sub-Fund
- to be cost efficient in some specific markets.

The Sub-Fund will not enter into Securities Financing Transactions ("**SFTs**"). The Sub-Fund will not enter into total return swaps. To achieve its investment goals, for treasury purposes and/or in case of unfavorable market conditions, the Sub-Fund may also invest in money market instruments and transferable securities on an ancillary basis. The Sub-Fund may also hold ancillary liquid assets, such as cash in bank deposits at sight held in current accounts with a bank accessible at any time, for up to 20% of its net assets which may only go beyond the 20% limit in case of exceptionally unfavorable market conditions as further described in the prospectus. The Sub-Fund may use derivatives for the purpose of efficient portfolio management, hedging and to implement investment strategies which aim to achieve the Sub-Fund's investment objective. The Sub-Fund may invest in derivatives in the form of futures and options traded in official markets including, but not limited to, EUREX, CMT, CBOT and MEFF. The Sub-Fund will not use derivatives dealt in over-the counter ("**OTC derivatives**"). The Shares are non-distributing, any income generated by the Sub-Fund is reinvested to grow the value of Shares. Investors may redeem their Shares in the Sub-Fund on each business day in Luxembourg. Taking into account the long-term holding period and the characteristics of

Depository).

Losses are not covered by an investor's compensation or guarantee scheme.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- € 10,000 is invested.

	If you exit after 1 year	If you exit after 7 years
Total costs	€ 235	€ 1,761
Annual cost impact (*)	2.4%	2.4% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.6% before costs and 2.2% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	€ 0
Exit costs	We do not charge an exit fee for this product.	€ 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.31% of the value of your investment per year. This is an estimate based on actual costs over the last year.	€ 231
Transaction costs	0.04% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€ 4
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	€ 0

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 7 years

The Sub-Fund is aimed at investors with a high risk tolerance who assume a perspective of capital appreciation in the medium/long term and, as such, are willing to tie up their savings for a recommended holding period of 7 years.

You can redeem your investment at any time during this period, or hold the investment longer. Investors may redeem their shares of the Sub-Fund on any business day in Luxembourg. Cashing in before the recommended holding period may increase the risk of lower investment returns.

HOW CAN I COMPLAIN?

If you wish to file a complaint about the Shares or the conduct of the PRIIP Manufacturer, please contact us at the below. Any complaints concerning the conduct of your distribution agent should be addressed to that distribution agent, with a copy to CaixaBank Asset Management Luxembourg S.A. using the contact details below:
