WHAT IS THIS PRODUCT?

Type

The Units are a class of units in Sapere Aude (the "Sub-Fund"), a sub-fund of CaixaBank Global Investment Fund (the "Fund"). The Fund is formed as a fonds commun de placement. The Fund qualifies as an undertaking for collective investment in transferable securities ("UCITS") within the meaning of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment. CaixaBank Asset Management Luxembourg S.A. is acting as management company of the Fund (the "Management Company"). The Sub-Fund is a sub-fund of an investment fund, whose performance will depend on the performance of its portfolio as further described in the section "Objectives" of this KID.

Term

The Fund, the Sub-Fund and the Units were created for an unlimited duration. The Fund can be dissolved by a decision of the Management Company as further outlined in the prospectus of the Fund. The PRIIP Manufacturer in its capacity as management company can terminate the Fund, Sub-Fund or the Units unilaterally.

Objectives

The objective of this Sub-Fund is to provide its investors with capital growth, by investing most of its assets in eligible fixed income and equity UCITS. The Sub-Fund will invest at least 60% of its net assets in UCITS or other UCIs ("Undertakings for Collective Investment"), including eligible Exchanged-Traded Funds ("ETFs"). As such, the Sub-Fund will qualify as a fund of funds. The Sub-Fund's exposure to equities is minimum 75 % of the net assets and can go up to 100% of the net assets. In normal market conditions, the Investment Manager expects that a large majority of the Sub-Fund's portfolio will be exposed to equities. The Sub-Fund will not actively seek exposure to fixed income securities including government bonds, credit bonds, emerging market bonds, convertible bonds and covered bonds. The Sub-Fund will not have direct exposure to emerging markets but may have a maximum exposure of 30% of its net assets indirectly to emerging markets through UCITS, although will be not its principal objective. The Sub-Fund may be exposed to assets denominated in GBP, USD and JPY currency other than the Euro. In addition to the above, the Sub-Fund may hold cash for up to 20% of its net assets. The Sub-Fund may also invest, on an ancillary basis, in money market instruments and deposits, this to achieve its investment goals, for treasury purposes and/or in case of unfavourable market conditions. The Sub-Fund will not enter into Securities Financing Transactions ("SFTs") nor Total Return Swaps ("TRS"). Should the Sub-Fund enter into SFTs or TRS in the future, the prospectus will be amended accordingly prior to such use. The Sub-Fund may use derivatives for the purpose of efficient portfolio management, hedging and to implement investment strategies which aim to achieve the Sub-Fund's investment objective. The Sub-Fund will in principle not make an extensive use of derivatives. The Sub-Fund may invest in derivatives in the form of futures and options traded in official markets including, but not limited to, EUREX, CMT, CBOT and MEFF, and/or in financial derivative instruments

dealt in over-the counter ("OTC derivatives"). The Units are non-distributing; any income generated by the Sub-Fund is reinvested to grow the value of Units of the Sub-Fund. The Units may be subscribed and redeemed upon demand on each Luxembourg banking day. Taking into account the medium/long-term holding period and the characteristics of the investments, the performance of the Sub-Fund depends on the performance of the investments over time. A positive performance of the investments will lead to the Sub-Fund's positive performance just as a negative performance of the investments will cause a negative performance. The Sub-Fund pursues an actively-managed investment strategy. The Sub-Fund refers to the following benchmark for comparison purposes: 33,25% MSCI Europe TR Net + 35,00% MSCI USA TR Net (USD) + 5,25% MSCI Japan TR Net (JPY) + 14,00% MSCI Emerging Markets TR Net (USD) + 2,75% ICE BofAML 1-3Y Euro Government + 7,00% ICE BofAML 3-5Y Euro Government + 2,75% ICE BofAML 3-5Y Euro Corporate (the "Benchmark"). The investments underlying the Sub-Fund do not take into account the European Union ("EU") criteria for environmentally sustainable economic activities¹. The depositary of the Fund is BNP Paribas, Luxembourg Branch. This KID is available in English and Spanish. The latest price for the Units is available at the registered office of the Fund, 60 avenue J.F. Kennedy L-1855 Luxembourg. The Fund is an umbrella fund offering several sub-funds whose assets and liabilities are legally segregated between each other. Such document only describes the class R of Sapere Aude. Other classes are also available within this Sub-Fund. Further information on such classes is available in the prospectus of BPI Global Investment Fund. Conversion in and out between sub-funds/classes of units within BPI Global Investment Fund is allowed. Periodic reports and the prospectus, as further outlined in the section "Other information" below, are prepared for the Fund as a whole. For further information, you

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- € 10,000 is invested.

	If you exit after 1 year	If you exit after 7 years
Total costs	€ 264	€ 2,129
Annual cost impact (*)	2.6%	2.6% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.2% before costs and 4.6% after costs.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 7 years

The Sub-Fund is aimed at investors with a high risk tolerance who assume a perspective of capital appreciation in the medium/long term and, as such, are willing to tie up their savings for a recommended holding period of 7 years.

You can redeem your investment at any time during this period, or hold the investment longer. Investors may redeem their units of the Sub-Fund on any business day in Luxembourg. Cashing in before the recommended holding period may increase the risk of lower investment returns.
